WORK EXPERIENCE

Stepping Edge

Jul 2024 – Dec 2024

AI Developer & Python Developer Intern

- Built automated web scrapers for chatbot training datasets and data ingestion.
- Developed an NLP chatbot with intent classification and contextual responses.
- Supported scalable deployment through API integration and workflow documentation.

GeeksforGeeks Campus Body– KAHE

June 2025 – Present

Technical Head

- Official student body organizing tech events, coding challenges, and mentorship programs.
- Mentored students in DSA, Python, and Data Science.

Metaverse Association (KAHE CSE R&D Club)

Jul 2024 – Present

AI Developer

- Academic R&D initiative under KAHE CSE Department focused on applied AI research.
- Collaborated with peers to ideate, prototype, and validate research-focused ML workflows.

EDUCATION

Karpagam Academy Of Higher Education

May, 2027

B.Tech, Artificial Intelligence and Data Science

Coimbatore

- **GPA: 8.5/10**

PROJECTS HIGHLIGHTS

NO₂ Downscaling AI Pipeline – Smart India Hackathon 2024

Built hybrid Random Forest + CNN model to downscale satellite-based air quality data to 100m resolution.

Shoplifting Detection Using CCTV

Developed a deep learning model with PyTorch and OpenCV to detect suspicious behavior in retail CCTV feeds.

AI Retail Scheduler System – Freelance

Built dynamic employee task allocator for retail shops using ML + real-world datasets.

Bitcoin Trend Predictor

Used Random Forest on RSI, MACD & technical indicators to forecast market trends.

CERTIFICATIONS, SKILLS & INTERESTS

- **Certifications:** IBM Data Science Professional Certificate, AWS Academy Cloud Foundations, Microsoft Azure AI Essentials Professional Certificate, Microsoft Career Essentials in Data Analysis, Microsoft Career Essentials in Generative AI
- **Technologies:** Python, JavaScript, TensorFlow, PyTorch, Keras, Scikit-learn, Pandas, NumPy, OpenCV, FastAPI, Flask, LangChain, Transformers, Streamlit, React.js, Next.js, MongoDB, MySQL, REST APIs, Firebase, Git, GitHub, Postman, Django
- **Skills:** Machine Learning, Deep Learning, NLP, Computer Vision, CNN, Transfer Learning, Model Deployment, Feature Engineering, Model Evaluation, Data Preprocessing
- **Interests :** Keyboard, Guitar, Building AI tools for Social Good.
